

WAXscope®

The WAXscope® is an advanced wireless '2-in-1' video-otoscope that combines portability, ergonomics and exceptional high-definition visualisation and magnification to transform ear examination and ear wax removal.

Ergonomics & Body Posture

Enhanced magnification and integrated iPhone viewing eliminates the need to lean forwards or turn away during procedures.

Magnified iPhone viewing allows clinician to look direct at patient

Improved body posture reduces back and neck strain

Enhanced View & Access

Our uniquely designed specula allows both microsuction and manual instrumentation usage without obscuring your view.

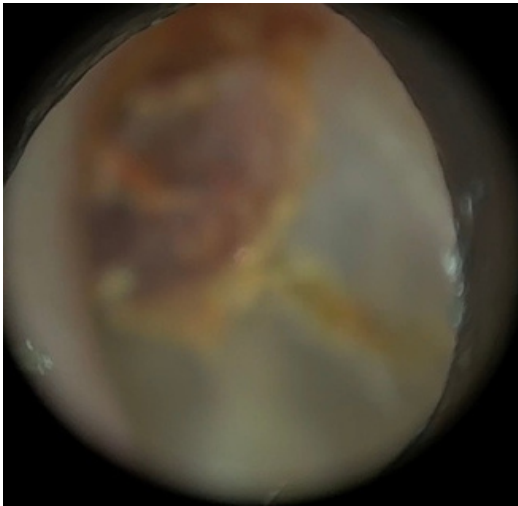

Patented specula with unique teardrop design

Clear visualisation of both ear wax and instrumentation

Focus & Brightness

Easily adjust focus and brightness instantly using intuitive on-screen sliders, or simply double-tap to activate auto-focus.

Out of focus and reduced illumination of dead skin on eardrum

In focus and increased illumination of dead skin on eardrum

Wireless & Portable

Completely wireless with no external monitor required, the WAXscope® also includes a custom carry case for easy portability.

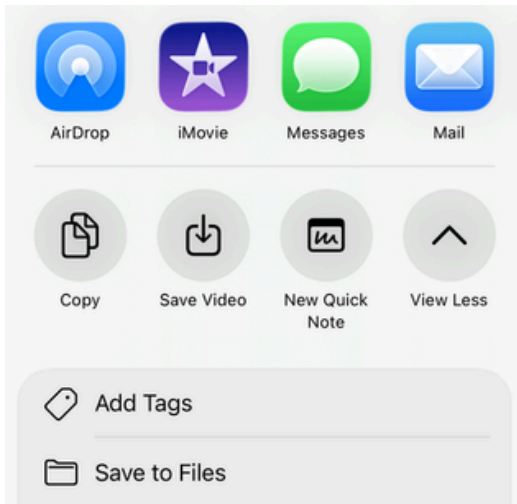

Fully integrated with no external wires or viewing monitor

Clearwax custom foam carrier case

AirDrop & AirPlay

Share images instantly with patients via AirDrop and wirelessly stream live examinations on large screen using AirPlay.

Share images with patients or colleagues via AirDrop or email

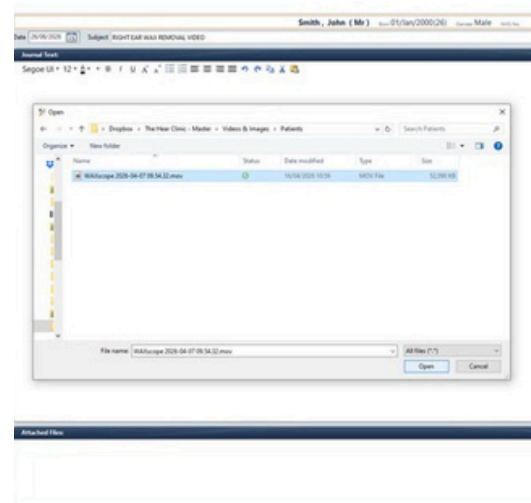

Use AirPlay to wirelessly stream live examinations or procedures

Patient Documentation

Upload images via the cloud or email through the Clearwax App and attach directly into patient records and clinical software.

Upload images to desktop using Dropbox, Google Drive etc.

Simply attach images as files to NOAH Journal Module

Upgrade your scope. Improve your vision.

IMPORTANT: Training is required when using the WAXscope® for ear wax removal, even for clinicians already experienced with head loupes, ENT operating microscopes or endoscopes.

For enquiries to purchase the WAXscope, please email 'The ENT Store' on waxscope@theentstore.com.au
